**CAMP™ TRAVEL EDITION**

**HOW TO PLAY**

1. All players choose a color peg and place it in a stump by the campfire.

2. Each player must choose which level they would like to play for the duration of the game. Level 1 is the easiest (suggested for beginners) and level 4 is the hardest. Players indicate their choices by placing the appropriate level card in the slot in front of them for all players to see. The youngest player starts first.

**OBJECT:**

To be the first player back to the campfire

- 50 question cards
- 4 game pieces
- 4 level cards
- decoder
- spinner

- up to 4 players

- ages 4 & up

3. If a player lands on a white set of footprints he loses a turn. If a player lands on a green set of footprints, that player will then attempt to answer a CAMP question card (based on corresponding level) read to them by another player. If the correct answer is given, the player spins again. If he or she answers incorrectly, the turn moves to the left. Watch out for the broken bridge and slippery bridge set-backs.
